## July 2025 Newsletter — HFGM Impact Report

Dear Friends

Greetings in the matchless name of our Lord Jesus Christ. Yes!! We serve a living God!!

### Our Calling

At **Hearts for Ghana Mission**, our calling is to reach the most vulnerable children — those living in the slums, on the streets, and in the remote villages of Ghana, especially around the markets. We are not only committed to sharing the *Good News* of Jesus Christ, but also to being a tangible expression of God's love by meeting practical needs and transforming communities for the Kingdom of Christ.

This year, we have been doing a lot of work in the remote villages. We visit as many as possible trying to establish meaningful and purposeful relationships. We look for “at-risk” situations and help families while sharing the Gospel of Jesus Christ.

The unsanitary conditions of one community began to play on our hearts. There were dirty pools of water everywhere after a rain, but the village had no safe water to drink.

Daily, the village women walked 2 miles each way with water pots on their heads to bring clean water to their homes.

The community's primary school with 500 students, had no restrooms because their latrine pits had collapsed and were condemned. When the children needed to use the restroom, they were simply sent outside to the bushes.

**The stench was overwhelming**

*“... when they found him, they exclaimed: ‘Everyone is looking for you!’ Jesus replied, ‘Let us go somewhere else—to the nearby villages —so I can preach there also. That is why I have come.’”*

Mark 1;37-38

# Hearts For Ghana Mission

**With 500+ students and staff at risk**, we knew something had to be done, but what could we do that could make a difference for the children in this forgotten and hopeless village?

We asked our friends in Ghana and the US to pray with us. **God began to place in our hearts a vision of something we did not feel we were able to accomplish: New toilet facilities.**

We began to meet with the Chief and village leaders. Everyone was agreeable. The HFGM staff began to make plans for new toilets to serve hundreds of students!

## **Help from the village men!!!**

For years, schoolchildren in this community accepted the indignity of using condemned and unsafe pit toilets. The village would have been happy with new latrines – but God’s plan was greater than their imaginations. When the men of the village came forward to say they would provide all of the hard labor, everything fell into pace. What this village with no running water received, was: **NOT new Latrines – but New Restrooms with FLUSHING TOILETS!**

***This is the Gospel in action. Your faith and giving make this ministry possible.***

Flushing toilets require fresh water flowing through pipes. Pipes that carry water from a village with clean water to this village with no water. God moved on the hearts of all the leaders and officials required and permissions were granted to pipe water to this village. Our God is glorious!

# Hearts For Ghana Mission

## New toilet urinals and sinks!

**Thanks to your generosity, your prayers, and your partnership, we were able to:**

- **Clean up the condemned pit-toilets.**
- **Renovate and build brand-new toilet and urinal facilities** for the school
- **Provide fresh, clean water for the entire community** during the construction process. This was not part of our original plan but being obedient to God calling, during the process of working on the toilet facilities God directed us to bring fresh and clean water to the community .
- **Restore dignity, health, and hope** to both the children and the community as a whole.

### Laying New Waterpipe

But there is more to God's blessing for these people. Flushing toilets required fresh water flowing through pipes. Pipes that carry water from a village with clean water to this village with no water.

God moved on the hearts of the leaders and officials and quickly permissions were granted to lay new water pipe bringing clean water to this village.

**Our God is great and glorious!**

# Hearts full of gratitude and joy.

Pastor Della and HFGM team meeting with few of the schoolchildren and their teachers. I wish you could have been there to see the joy and excitement written on their faces.

You have helped to make a life-changing difference in the lives of an entire village of people. People you have never met. Not only has God used you to help provide fresh clean water, but He has used you to restore dignity, health, and hope both to the children and the community.

We give *all the glory to God* and a heartfelt *thank you* to **every donor, every prayer partner, and every friend** who made this possible. You are a vital part of our mission. Your support is not only improving lives physically, but planting seeds of faith and hope in hearts that need it most.

**Please continue to pray for us** as we press on — going from village to village reaching more children, spreading the Gospel, and meeting real needs in real places.

Once again, thank you for your kindness and for embodying the true spirit of Christ. We look forward to continuing this journey together and making a lasting difference in the lives of these children for the kingdom of Christ.
